Presents “Complying with U.S. Export Controls”

Tuesday, March 5 & Wednesday, March 6, 2019

Location: Four Points Sheraton, San Diego

This two-day program is led by BIS professional counseling staff and provides an in-depth examination of the Export Administration Regulations (EAR). The program will cover the information exporters need to know to comply with U.S. export control requirements under these regulations. We will focus on what items and activities are subject to the EAR; steps to take to determine the export licensing requirements for your item; how to determine your export control classification number (ECCN); when you can export or reexport without applying for a license; export clearance procedures and record keeping requirements; Export Compliance Program (ECP) concepts; and real life examples in applying this information. Presenters will conduct a number of "hands-on" exercises that will prepare you to apply the regulations to your own company's export activities. This one-of-a-kind program is well suited for those who need a comprehensive understanding of their obligations under the EAR.

All seminar participants will receive an official training certificate upon course completion. Continuing legal education credit (MCLE) is available, and varies with the length of each seminar, for California State Bar members.

About the Instructors

The instructors are experienced export policy specialists, and enforcement personnel from BIS's field offices. The instructors will be available throughout the seminar to answer your questions.
