before 11/13 - MEMBERS & NONMEMBERS GENERAL ADMISSION: **\$499** Fee for Additional Attendees: **\$199**

NEXCO is pleased to present this comprehensive one-day seminar on classifying inorganic and organic **chemicals** in Chapters 28 and 29 of the U.S. Harmonized Tariff Schedule. The seminar will include a brief discussion of polymers in primary form in Chapters 39 and 40. The seminar will provide guidance for chemical classification, definitions of various chemistry terms necessary for classification, discussion of drugs and medicaments in Chapter 30 and the Pharmaceutical Appendix. This seminar is geared toward imports managers and others in the trade community without a chemistry background as well as chemists learning to classify. Our Instructor, **Andrea “Andy” Abraham**, is an associate at the law firm of Meeks, Sheppard, Leo & Pillsbury which specializes in customs and international trade. Ms. Abraham has presented this material to various Fortune 100 companies and trade associations and is the author of two well-recognized books on the subject “**Polymers and Rubber Classifications Manual**” and “**Chemical Customs Classifications Manual**”. She began her career at C. Itoh & Co., and worked for a number of years at Swiss Army.
