Summary KPMG International cordially invites you to join us on Tuesday, September 27, 2016, for a complimentary training seminar and networking event focused on the First Sale for Export Principle as it relates to shipments entered into the commerce of the United States. KPMG will also address vendor issues/concerns, best practices, and benefits as they relate to the First Sale for Export Principle.

Many U.S. companies are utilizing this planning strategy, but the rules and interpretations are not always easy to navigate. The training will examine how to establish the appropriate documentation and facts to satisfy a First Sale for Export declaration and explain practices that leading companies apply daily.

Training session participants that are currently enrolled in or are interested in becoming part of a U.S. buyer's First Sale for Export program can also attend a tutorial for KPMG's LINK Portal. KPMG's LINK Portal is an exciting web-based solution that KPMG pioneered to efficiently collect First Sale information on behalf of U.S. buyers.

This seminar is applicable to both importers and exporters of products to the United States as well as factories, vendors and buying agents. In addition, the session will also provide a unique opportunity for participants to network with representatives from a range of companies with trade operations encompassing the United States and

Asia. The below agenda includes both basic and advanced First Sale topics.
