MPF on Tariff Preference Level Goods

Tariff Preference Level (TPL) goods imported under a FTA (TPA) do not “originate” and thus are ineligible for the MPF exemption provided in 19 CFR 24.23(c). (Programming examples can be seen in CSMS [04-000012](#) and [04-000071](#))

MPF Exemption on Unconditionally Free Goods

Per CSMS [09-000292](#), the MPF exemption is available to unconditionally free goods even though “Free” is not listed in the “Special” column of the HTSUS. The good must meet a rule of origin and all other FTA requirements. (Programming examples for additional preference programs can be seen in CSMS [04-000012](#) and [04-000071](#))

MPF Exemption on Over-Quota Tariff Rate Quota (TRQ) Goods

If goods subject to a TRQ are entered with the benefit of a free trade agreement (FTA) that provides the MPF exemption but the in-quota allocation is filled, the MPF exemption does apply even though the special program indicator (SPI) is not listed in the “Special” column of the HTSUS corresponding to the over-quota tariff item.
