

Free, Educational Webcast:

Best Practices for Managing PGAs in ACE

Thursday, July 14, 2016 at 2:00 pm EST/11:00 am PST

Presented by Integration Point

As more countries move forward with the implementation and use of single windows, we are learning more and more about how best to manage the data required. The implementation of the Automated Commercial Environment (ACE) in the US is no different.

US Customs & Border Protection (CBP) continues with the roll-out of ACE with another deadline set for July 23, 2016. After July 23, a majority of entry types must be filed in ACE, including ones with products regulated by any of the Partner Government Agencies or PGAs. With this deadline just around the corner, is your company ready for this major milestone in the move to ACE?

We invite you to join us for a **free, educational 60 minute webcast** to learn more about managing PGAs in ACE as well as upcoming deadlines. The webcast will be held on **Thursday, July 14, 2016 at 2:00 p.m. EST** and will provide attendees with a chance to learn not only about managing PGAs but also understanding what is required and how to utilize the documents that are available today. The presenters, **Elizabeth Connell, Vice President of Product Management for Zone Automation Solutions, and Virginia Thompson, Vice President for Global Trade Management Solutions, both with Integration Point**, will walk attendees through the requirements, timing, best practices and available resources during this webcast.

During the webcast, attendees will gain knowledge of:

- Basics of ACE and PGAs
- Rules & Exceptions for Different Entry Types
- Best Practices for Collecting PGA Data
- ACE Filing Requirements & Timing
- Deadlines & Other Ways to Submit PGA Data (DIS, Hybrid, etc.)
