## DUTY REFUNDS AND DRAWBACK MANAGEMENT WORKSHOP AND LUNCHEON

November 17, 2016

### What's Trending for Exporters and Importers? Do You Know About the New Duty Drawback Law?

Many global businesses are unaware of options that maybe available to them to take advantage of proven duty saving programs to help reduce import and export costs, increase profitability and gain competitive advantage in U.S. and foreign markets. Join us and learn what's trending in the international trade arena for multinational companies, importers and exporters about one program that's sure to be of interest – Duty Drawback – A Refund of Certain Exports. New rules are soon to go into effect.

This workshop will provide an overview of the program, some of the noteworthy requirements and the associated risks. There will be a discussion of the latest trends in using this program, the new Drawback Law, best practices and tips for regulatory compliance.

This workshop is designed for Vice Presidents, Directors, Managers, Supervisors, Corporate Counsel and other professionals of companies who are importing and/or exporting with responsibility for trade compliance, import/export processing, supply chain and logistics management, sales and finance. International trade-related service providers in legal, customs brokerage, freight forwarding, consultants, banking and city economic development will also find this workshop of value.
