

Mercedes-Benz

## International Supply Chain Specialist

From passenger cars to commercial vans, the Mercedes-Benz brand stands as one of Daimler AG's many success stories. Behind Mercedes-Benz and our several other automotive brands are more than 280,000 employees worldwide who put into practice Daimler's core values of Passion, Respect, Integrity and Discipline each day to accomplish our vision. As the inventor of the automobile, we believe it is our mission and our duty to shape the future of mobility in a safe and sustainable manner - with trendsetting technologies, outstanding products and made-to-measure services.

Here in Charleston, SC, Mercedes-Benz Vans, LLC is writing an exciting chapter in Daimler's history as we add the first U.S. van assembly plant for the Mercedes-Benz Sprinter, in addition to our existing reassembly operation for Sprinter and METRIS vans. Our slogan at Mercedes-Benz is "Vans. Born to Run." We invite engaged, innovative job candidates to run the ramp up of our new facility with us!

### Job Overview:

To plan & integrate MBVs activities relating to the company's supply chain taking into consideration both North American and international transportation as well as customs compliance.

### Responsibilities:

- **Transportation:** To plan efficient, economic movement of parts, material and empty returnable containers between the suppliers, third party logistics providers, and the production line while meeting compliance to all Federal and state regulations.
- **Customs Compliance:** To plan the establishment and maintenance of good customs processes. To plan processes that ensure that all U. S. Customs regulations are followed and that customs duties are effectively documented, controlled and paid.
- **Material Handling:** To plan movements of direct material, return material, and empty returnable containers on the yard and between the docks and the staging areas.
- **Shipping/Receiving:** To develop processes and procedures for outbound shipments and miscellaneous inbound shipments.
- To develop a concept for handling abnormal conditions, including, but not limited to, work stoppages at a supplier, material shortages, rejections, new priorities, etc.
- To maintain a high degree of integrity and fairness in dealings and transactions with all logistics service providers / suppliers and regularly monitors that activity to ensure its consistency.
- Will perform other duties as assigned

### Qualifications:

- Bachelor's degree in Business / Logistics or in a related Engineering field required, or the equivalent combination of education and experience
- A minimum of 5 years of relevant professional experience within a manufacturing setting with strong emphasis on inbound logistics operations and extensive experience with international supply chains.
- Extensive knowledge / experience with customs compliance.
- Knowledge of the German and / or Spanish Language.
- Highly motivated self-starter; Team oriented; outstanding planning and proactive skills.

- Excellent verbal and written communication skills including the ability to communicate with all levels of management, executive/senior staff
- Advanced knowledge in MS-Office products
- Basic knowledge in TS 16949 and ISO 9001, also ISO 14001
- Experience working in an automotive manufacturing environment.

If you have experience in the above and are interested in joining an outstanding company we welcome you to apply. The division Mercedes-Benz Vans is world renown for quality and innovative products.

EXCELLENT COMPENSATION & BENEFITS PLAN WITH 401k MATCHING

*Mercedes-Benz Vans is proud to be an Equal Opportunity Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, or any other characteristic protected by law.*

**Mercedes-Benz Vans, LLC (“MBV”)** is part of the division Mercedes-Benz Vans of Daimler AG, Germany. It is a plant in South Carolina that assembles Sprinter vans for the U.S. market under the brands Mercedes-Benz and Freightliner, with headquarters in Charleston, SC. The midsize Metris van was added to the assembly line in 2015.

Mercedes-Benz Vans announced in March 2015 that it will invest \$500 million in construction of a new Sprinter production plant, in addition to an expansion of existing assembly operations. The new facility will be also located in Charleston, and will provide up to 1,300 jobs.

More than 112,000 Sprinters have been assembled in Charleston and delivered to destinations in the U.S. since 2006. The U.S. is now the second largest market for Sprinter vans, after Germany.
