GOAL

Direct and institutionalize change via projectized goals whose verifiable deliverables are integrally aligned to corporate strategic objectives & requirements in an international context.

PROFILE

I have over 30 years experience working in multi-billion dollar, multinational corporations in multiple capacities, with each one having progressively greater responsibility: licensed Customs Broker, national brokerage account team manager, trade compliance manager in varying roles, and regional & global project manager.

CURRENT AREAS OF EXPERTISE

- Initiating, Planning, Executing, Controlling, and Closing projects
- PDCA (Plan, Do, Check, Act)
- Directing cross-functional project team activity to achieve required deliverables/results within performance measurement baselines (Tax, Treasury, Purchasing, Legal, Logistics, Product Brand Owners, Sales, IT)
- Identifying data-driven decision options and arriving at actionable team consensus
- Conducting effective risk analysis: process, financial, and regulatory
- Regulatory US Customs Knowledge: Valuation (transfer pricing), Reconciliation, Antidumping, FTA,
- Technology: MS Access, Sharepoint, Infopath, Visio, PowerPoint, SAP

CAREER ACCOMPLISHMENTS

- Direct US Customs Focused Assessment to successful conclusion
- Direct & co-direct effective on-boarding & integration of external service providers
- Manage trade-related Merger & Acquisition analyses
- Analyze & operationally account for major supplier contracts having US Customs regulatory impacts (valuation)
- Initiate, plan, execute, and transition multi-million dollar vendor billing audit process to operations
- Drove centralization of multiple trade processes to common platform, including processes impacting external service providers, permitting at-a-glance review of data-driven metrics
- Initiated, planned, executed, controlled & closed successful 7-figure NAFTA refund project
- Audit Exel Global Logistics (Exel) offices, author compliance improvement plans (CIP), manage CIP ownership transition to regional functional group(s)
