

## **Global Trade Compliance Manager**

### **About Milacron:**

We are a global leader in the manufacture, distribution and service of highly engineered and customized systems used in the \$27 billion plastic technology and processing industry. We are the only global company with a full-line product portfolio that includes hot runner systems, injection molding, blow molding and extrusion equipment. We maintain strong market positions across these products as well as leading positions in process control systems, mold bases and components, maintenance, repair and operating (“MRO”) supplies for plastic processing equipment and fluid technology. Our strategy is to deliver highly customized equipment, components and service to our customers throughout the lifecycle of their plastic processing technology systems.

We serve the market through three segments: Melt Delivery and Control Systems, which we refer to as “MDCS,” Advanced Plastic Processing Technologies, which we refer to as “APPT,” and Fluid Technologies, which we refer to as “Fluids.” Our MDCS segment designs, manufactures and sells hot runner and process control systems, mold bases and components, and sells MRO supplies. Our APPT segment designs, manufactures and sells injection, extrusion, and blow molding equipment, co-injection systems and related parts and services. Our Fluids segment is a global manufacturer of synthetic and semi-synthetic lubricants and coolants used in various industrial metalworking applications.
