If you import or Export Steel, Aluminum, items from China, or US Origin items to any country, you must attend this webinar!

We will share the top 3 skills that you must master to effectively and strategically manage your imports and Exports. Never before has trade compliance become this important with such a big impact. Millions and millions of dollars in additional duties may be at stake for your company. We will show you how to apply and leverage these 3 skills to help your company save money, improve competitiveness and reduce risk.

We will also share a special assessment tool that you can use to understand and immediately respond to these ongoing and future changes.

“Be proactive, not reactive. Only the strong will survive!”
