US Government imposes economic sanctions on Mali targeting certain individuals and entities

On July 26, 2019, the President issued Executive Order 13882 targeting Mali entitled "Blocking Property and Suspending Entry of Certain Persons Contributing to the Situation in Mali" ("Mali EO"). A White House press release on the Mali EO is available here. The Mali EO provides authorization to the US Treasury Department, in consultation with the Department of State, to sanction individuals who are responsible for or complicit in actions that exacerbate the deteriorating situation in Mali. The US Treasury Department's Office of Foreign Assets Control ("OFAC") has thus far not issued a press release related to the Mali EO or added any individuals or entities to the Specially Designated Nationals and Blocked Persons List ("SDN List").

The Mali EO declares a national emergency to deal with the threat presented to the national security and foreign policy of the United States due and was issued in response to, among other things, the repeated violations of the agreed-to

ceasefire in 2015, the expansion of terrorist activities into southern and central Mali, the intensification of drug trafficking and human trafficking, and the intensification of attacks against civilians, the Malian defense and security forces, and United Nations peacekeepers. The Mali EO allows for the designation as SDNs of those parties that are responsible for, or complicit in, or to have directly or indirectly engaged or attempted to engage in:

1. actions or policies that threaten the peace, security, or stability of Mali;
2. actions or policies that undermine democratic processes or institutions in Mali;
3. a hostile act in violation of, or an act that obstructs, including by prolonged delay, or threatens the implementation of, the 2015 Agreement on Peace and Reconciliation in Mali;
4. planning, directing, sponsoring, or conducting attacks against local, regional, or state institutions, the Malian defense and security forces, any international security presences, United Nations peacekeepers, other United Nations or associated personnel, or any other peacekeeping operations;
5. obstructing the delivery or distribution of, or access to, humanitarian assistance;
6. planning, directing, or committing an act that violates international humanitarian law or that constitutes a serious human rights abuse or violation, including an act involving the targeting of civilians through the commission of an act of violence, abduction or enforced disappearance, forced displacement, or an attack on a school, hospital, religious site, or location where civilians are seeking refuge;
7. the use or recruitment of children by armed groups or armed forces in the context of the armed conflict in Mali;
8. the illicit production or trafficking of narcotics or their precursors originating or transiting through Mali;
9. trafficking in persons, smuggling migrants, or trafficking or smuggling arms or illicitly acquired cultural property; or
10. any transaction or series of transactions involving bribery or other corruption, such as the misappropriation of Malian public assets or expropriation of private assets for personal gain or political purposes.

The Mali EO also authorizes designation of those that materially assist, sponsor, or provide support to SDNs designated pursuant to the Mali EO. Individuals designated pursuant to the Mali EO are restricted from entering the United States.

Any property or interests in property of SDNs designated pursuant to the Mali EO that come within US jurisdiction or possession of a US person must be blocked and reported to OFAC, and US persons are generally prohibited from transacting with any such SDNs or entities 50% or more owned or controlled by SDNs.

US Government imposes new sanctions targeting the Supreme Leader of Iran, the Supreme Leader's Office, and the Islamic Revolutionary Guard Corps

On June 24, 2019, the President issued Executive Order 13876, "Imposing Sanctions With Respect To Iran" ("EO 13876"), which specifically imposes sanctions on the Supreme Leader of Iran (currently, Ayatollah Khamenei) and the Supreme Leader's Office ("SLO"), authorizes the future designation of persons appointed by, or providing support to, the SLO, and designates certain additional senior Iranian Revolutionary Guard ("IRGC") commanders. While a politically significant

and symbolic move, by itself this latest action is unlikely to have much practical impact, except to increase the risk, yet again, of secondary sanctions for non-US parties (particularly financial institutions) that engage in transactions with the targeted parties.

According to remarks from the President and White House statement, EO 13876 is a part of the Trump Administration's overall efforts to put financial pressure on the Iranian regime, as well as a response to Iran's "escalated aggression towards the United States in recent days." The White House specifically pointed to recent escalations, including the attack on a US drone operating over international waters as well as Iran's announcement that it will be increasing its stockpile of enriched uranium. A similar statement on EO 13876 from the Treasury Department is also available here and from State Department is available here.

Beyond the Leader and SLO designations, EO 13876 authorizes the US Government to designate as a Specially Designated National ("SDN") any person or entity that meets the following criteria:

1. individuals appointed by the Leader or the SLO as a state official of Iran, or as the head of any entity located in Iran, or a non-Iranian entity owned/controlled by one or more Iranian entities;
2. individuals appointed by any of the foregoing;
3. parties that materially assist, sponsor, or provide financial, material, or technological support for, or goods or services in support of any person designated as an SDN pursuant to EO 13876;
4. parties owned or controlled by, or having acted or purported to act for or on behalf of, directly or indirectly, any person designated as an SDN pursuant to EO 13876; or
5. members of the board of directors or a senior executive officer of any party designated as an SDN pursuant to EO 13876.

Non-US financial institutions face additional risks because EO 13876 also authorizes the imposition of sanctions (i.e., restrictions or prohibitions on US correspondent accounts and payable-through accounts) on non-US financial institutions that knowingly conduct or facilitate any "significant" financial transaction for or on behalf of any of the above SDNs. The US Treasury Department's Office of Foreign Assets Control ("OFAC") has previously advised via the issuance of FAQ 671 that it will adopt the multi-factor definition of "significant" set out at 31 C.F.R § 561.404, which includes the size, number, and frequency of the transactions and their impact on US sanctions program objectives.

Concurrent with EO 13876 and the SDN designation of the Leader, OFAC added eight senior commanders of the IRGC to the Specially Designated Nationals and Blocked Persons List ("SDN List"), and amended the IRGC's entry on the SDN List to include a citation to EO 13876. The statement from the US Treasury Department explained that these individuals are in charge of the IRGC's naval command off Iran's southern provinces around where the attack on the US drone took place, as well as contribute to Iran's destabilizing presence in Syria.

USTR publishes first group of product exclusions from China Sec. 301 list 2

On July 31, 2019, the Office of the US Trade Representative (USTR) published in the *Federal Register* a notice of product exclusions for goods from China subject to the approximately $16Bn in tariffs imposed on August 23, 2018 (List 2) under Section 301. USTR will continue to issue decisions on pending requests on a periodic basis. This is the first group of product exclusions for the August 23 action (List 2)The product exclusions announced in this notice will apply as of the August 23, 2018 effective date of the $16 billion action, and will extend for one year after the publication of this notice. U.S. Customs and Border Protection (CBP) will issue instructions on entry guidance and implementation.

As set out in the Annex to the notice, the exclusions are reflected in 69 specially prepared product descriptions, which cover 292 separate exclusion requests. The exclusions are available for any product that meets the description in the Annex, regardless of whether the importer filed an exclusion request. Further, the scope of each exclusion is governed by the scope of the product descriptions in the Annex to the notice, and not by the product descriptions set out in any particular request for exclusion.

The notice:

- adds subheading 9903.88.12 to the *Harmonized Tariff Schedule of the United States* (HTSUS);
- adds new U.S. note 20(o) to subchapter III of chapter 99, HTSUS;
- amends U.S. note 20(d); and
- amends the article description of subheading 9903.88.02.

USTR seeks comments on operations of Caribbean Basin Initiative

On July 25, 2019, the Office of the US Trade Representative (USTR) published in the *Federal Register* a notice [Docket Number USTR–2019–0007] requesting comments regarding the operation of the *Caribbean Basin Economic Recovery Act* (CBERA), as amended by the *Caribbean Basin Trade Partnership Act* (CBTPA) (19 U.S.C. 2701 et seq.), commonly referred to as the Caribbean Basin Initiative, or CBI. The USTR has to submit a report to Congress regarding the operation of the CBI by December 31, 2019. The Trade Policy Staff Committee (TPSC) invites comments concerning the operation of the CBI, including the performance of each beneficiary country, to assist in preparing the report to Congress on the operation of the CBI program. The TPSC must receive written comments by August 30, 2019.

USTR allocates FY 2020 TRQs for raw cane sugar, refined and specialty sugar, and sugar-containing products

On July 15, 2019, the Office of the US Trade Representative (USTR) published in the *Federal Register* a notice of the of country-by-country allocations of the fiscal year (FY) 2020 in-quota quantity of the tariff-rate quota (TRQ) for imported raw cane sugar, certain sugars, syrups and molasses (also known as refined sugar), specialty sugar, and sugar-containing products.

USTR grants additional Sec. 301 exclusion requests

On July 9, 2019, the Office of the USTR published in the *Federal Register* a notice of product exclusions from the imposition of additional duties on goods of China with an annual trade value of approximately $34 billion (the $34 billion action) as part of the action in the Section 301 investigation of China's acts, policies, and practices related to technology transfer, intellectual property, and innovation. USTR initiated the exclusion process in July 2018, and stakeholders have submitted requests for the exclusion of specific products. In December 2018, March 2019, April 2019, May 2019, and June 2019, USTR granted exclusion requests. This notice announces USTR's determination to grant additional exclusion requests, as specified in the Annex to this notice. USTR will continue to issue decisions on pending requests on a periodic basis. The product exclusions announced in this notice will apply as of the July 6, 2018 effective date of the $34 billion action, and will extend for one year after the publication of this notice. US Customs and Border Protection (CBP) will issue instructions on entry guidance and implementation.

The exclusions (represented by new HTSUS subheading 9903.88.11) are reflected in 110 specially prepared product descriptions, which cover 362 separate exclusion requests. The exclusions are available for any product that meets the description in the Annex to the notice, regardless of whether the importer filed an exclusion request. Further, the scope of each exclusion is governed by the scope of the product descriptions in the Annex to the notice, and not by the product descriptions set out in any particular request for exclusion. The Annex is divided as follows:

- Paragraph A, subparagraphs (3)–(5) are conforming amendments to the HTSUS reflecting the modification made by the Annex to this notice.
- Paragraph B of the Annex to the notice modifies U.S. note 20(k)(26) to subchapter III of chapter 99 of the HTSUS, as set out in the Annex of the notice published at 84 Fed. Reg. 21389 (May 14, 2019).
- In order to clarify the periodic revisions to the HTSUS, paragraph C of the Annex modifies the text to U.S. note 20(m)(27) to subchapter III of chapter 99 of the

HTSUS, as set out in the Annex of the notice published at 84 Fed. Reg. 25895 (June 4, 2019).

- Paragraphs D and E of the Annex to the notice correct a typographical error in U.S. notes 20(m)(53) and 20(m)(54) to subchapter III of chapter 99 of the HTSUS, as set out in the Annex of the notice published at 84 Fed. Reg. 25895 (June 4, 2019).

USTR seeks comments on enforcement of WTO rights in the Large Civil Aircraft Dispute

On July 5, 2019, the Office of the USTR published in the *Federal Register* a notice of a hearing and a request for comments [Docket No. USTR–2019–0003] with respect to enforcement of World Trade Organization (WTO) rights in the Large Civil Aircraft Dispute. The USTR is considering the additional list of products in the Annex to the notice, for inclusion on a final list of products to be subject to increased duties in connection with the enforcement of US rights in the WTO dispute against the European Union (EU) and certain EU member States addressed to EU subsidies on large civil aircraft. The interagency Section 301 Committee is seeking public comments and will hold a public hearing in connection with the possible imposition of increased duties on the products in the Annex to this notice.

USTR invites comments from interested persons with respect to the possible inclusion of products from the additional list in the Annex to the notice on the final list of products subject to additional duties. In particular, USTR invites comments with respect to:

- The specific products in the additional list to be subject to increased duties;
- the level of the increase, if any, in the rate of duty; and
- whether increased duties on particular products on the additional list might have an adverse effect upon U.S. stakeholders, including small businesses and consumers.

To be assured of consideration, the following schedule applies:

- July 24, 2019: Due date for submission of requests to appear at the public hearing and summary of testimony.
- August 5, 2019: Due date for submission of written comments.
- August 5, 2019: The Section 301 Committee will convene a public hearing in the Main Hearing Room of the U.S. International Trade Commission, 500 E Street SW, Washington DC 20436 beginning at 9:30 a.m.
- August 12, 2019: Due date for submission of post-hearing rebuttal comments.

USTR seeks comments for annual AGOA review

On June 28, 2019, the Office of the USTR published in the *Federal Register* a notice [Docket No. docket number USTR–2019–0006] announcing the initiation of the annual review of the eligibility of the sub-Saharan African countries to receive the benefits of the *African Growth and Opportunity Act* (AGOA). The AGOA Implementation Subcommittee of the Trade Policy Staff Committee (Subcommittee) is developing recommendations for the President on AGOA country eligibility for calendar year 2020. The Subcommittee requests comments for this review and will conduct a public hearing on this matter.

Dates:

- August 14, 2019 at noon EDT: Deadline for filing requests to appear at the August 27, 2019 public hearing, and for filing pre-hearing briefs, statements, or comments on sub-Saharan African countries' AGOA eligibility.
- August 27, 2019: The Subcommittee will convene a public hearing at 10:00 a.m. in Rooms 1 and 2, 1724 F Street NW, Washington, DC 20508, to receive testimony related to sub-Saharan African countries' eligibility for AGOA benefits.
- September 3, 2019: Deadline for filing post-hearing briefs, statements, or comments on this matter.

State updates list of Kimberley Process participants

On July 5, 2019, the Department of State published in the *Federal Register* a notice [Public Notice 10813] updating the list of Participants eligible for trade in rough diamonds under the *Clean Diamond Trade Act of 2003*, and their respective Importing and Exporting Authorities, revising the previously published list of April 26, 2017 to reflect the addition of Gabon. Section 4 of the Act requires the President to prohibit the importation into, or the exportation from, the United States of any rough diamond, from whatever source, that has not been controlled through the Kimberley Process Certification Scheme (KPCS). Under Section 3(2) of the Act, ''controlled through the Kimberley Process Certification Scheme'' means an importation from the territory of a Participant or exportation to the territory of a Participant of rough diamonds that is either (i) carried out in accordance with the KPCS, as set forth in regulations promulgated by the President, or (ii) controlled under a system determined by the President to meet substantially the standards, practices, and procedures of the KPCS. The referenced regulations are contained at 31 C.F.R. part 592 (''*Rough Diamond Control Regulations*'') (68 Fed. Reg. 45777, August 4, 2003).

CBP announces Sec. 321 Data Pilot

On July 23, 2019, US Customs and Border Protection (CBP) published in the *Federal Register* a general notice announcing that CBP is conducting a voluntary test to collect certain advance data related to shipments potentially eligible for release under section 321 of the *Tariff Act of 1930*, as amended. Section 321 provides for an administrative exemption from duty and taxes for shipments of merchandise (other than bona-fide gifts and certain personal and household goods) imported by one person on one day having an aggregate fair retail value in the country of shipment of not more than $800. Pursuant to this test, participants will electronically transmit certain data elements pertaining to these shipments to CBP in advance of arrival. CBP is conducting this test to determine the feasibility of requiring advance data from different types of parties and requiring additional data that is generally not required under current regulations in order to effectively identify and target high-risk shipments in the e-commerce environment. Participants may be non-traditional CBP partners, such as online marketplaces. The notice describes the purpose of the test and test procedures, and sets forth the eligibility requirements for participation. The test will be known as the Section 321 Data Pilot.

The voluntary pilot will begin on August 22, 2019 and run for approximately one year. CBP will accept applications from prospective pilot participants at any time, including after the pilot commences, until CBP has identified a sufficient number of eligible participants.

CBP publishes quarterly interest rates

On July 5, 2019, CBP published in the *Federal Register* a general notice that advises the public that the quarterly Internal Revenue Service interest rates used to calculate interest on overdue accounts (underpayments) and refunds (overpayments) of customs duties will decrease from the previous quarter. For the calendar quarter beginning July 1, 2019, the interest rates for overpayments will be 4 percent for corporations and 5 percent for non-corporations, and the interest rate for underpayments will be 5 percent for both corporations and non-corporations.

CBP grants domestic interested party petition on the tariff classification of certain steel special profiles

On July 3, 2019, US Customs and Border Protection (CBP) published in the *Federal Register* a notice of a decision on a domestic interested party petition [USCBP–2019–0012] regarding the tariff classification of certain steel special profiles for the manufacture of forklift truck masts and carriages. On April 3, 2019, CBP published in the *Federal Register* a Notice of Receipt of a Domestic Interested Party Petition, filed pursuant to section 516, *Tariff Act of 1930*, as amended (19 U.S.C. 1516), regarding the classification, under the *Harmonized Tariff Schedule of the United States* (HTSUS), of the subject steel special profiles. The Petition asked CBP to review the classification of these products and revoke New York Ruling Letter (NY) N293371, dated February 8, 2018. After reviewing 14 comments received in response to the Petition, CBP has issued a decision agreeing with Steel of West Virginia, Inc. (Petitioner) and revoking NY N293371, *supra*, as well as NY F83480, dated March 13, 2000, which pertained to merchandise substantially similar to the subject steel special profiles. The notice advises Petitioner and all interested parties of CBP's determination.

CBP adopts final rules on flights to Cuba

On June 25, 2019, CBP published in the *Federal Register* a final rule [Docket No. USCBP–2016–0015; CBP Decision No. 19–06] adopting, without change, interim amendments to the CBP regulations published in the *Federal Register* on March 21, 2016, that removed certain provisions regarding flights to and from Cuba that were either obsolete due to intervening regulatory changes or were duplicative of regulations applicable to all other similarly situated international flights.

Export Controls and Sanctions

State proposes to consolidate ITAR exemptions

On July 26, 2019, the State Department published in the *Federal Register* an advance notice of proposed rulemaking [Public Notice: 10799] as part of an ongoing effort to better organize the *International Traffic in Arms Regulations* (ITAR). The Directorate of Defense Trade Controls (DDTC) seeks public comment on consolidating and clarifying the various exemptions located throughout the regulations. DDTC does not seek input on whether individual exemptions in the ITAR should be expanded or eliminated, but rather requests comments regarding: Which exemptions, if any, are redundant or could be consolidated; and which exemptions, if any, contain language that introduces significant ambiguity or hinders the exemption's intended use. The Department of State will accept comments in response to this notice until August 26, 2019.

State updates list of Cuban entities and subentities

On July 26, 2019, the State Department published in the *Federal Register* a document [Public Notice: 10827] updating its List of Restricted Entities and Subentities Associated with Cuba (Cuba Restricted List) with which direct financial transactions are generally prohibited under the *Cuban Assets Control Regulations* (CACR). This Cuba Restricted List is also considered during review of license applications submitted to the Department of Commerce's Bureau of Industry and Security (BIS) pursuant to the *Export Administration Regulations* (EAR).

OFAC amends Global Terrorism, Transnational Criminal Organizations and Hizballah Financial Sanctions Regulations

On Juny 23, 2019, the Office of Foreign Assets Control (OFAC) published in the *Federal Register* a final rule amending the *Global Terrorism Sanctions Regulations* (GTSR), and the *Transnational Criminal Organizations Sanctions Regulations* (TCOSR), to implement and reference the Hizballah International Financing Prevention Amendments Act of 2018 (HIFPAA). OFAC is also amending the GTSR to implement and reference the *Sanctioning the Use of Civilians as Defenseless Shields Act of 2018* (Shields Act). OFAC is further amending the TCOSR to implement Executive Order 13863 of March 15, 2019 ("Taking Additional Steps to Address the National Emergency with respect to Significant Transnational Criminal Organizations"). Finally, OFAC is amending the *Hizballah Financial Sanctions Regulations* (HFSR), to make certain technical and conforming changes and to update certain provisions.

OFAC issues technical amendments to the North Korean Sanctions Regulations

On June 28, 2019, OFAC published in the *Federal Register* a final rule amending the *North Korea Sanctions Regulations* (31 C.F.R. Part 510) to update references to descriptive text that appears in certain entries on OFAC's Specially Designated Nationals and Blocked Persons List (SDN List) and the List of Foreign Financial Institutions Subject to Correspondent Account or Payable-Through Account Sanctions (CAPTA List). The rule was effective on publication.

On July 11, 2019, OFAC published a correction to the above final rule. On page 30869, in the first column, in the second paragraph, on the twelfth line, ''§§ '' should read ''sections''.

OFAC issues amended Venezuela-related General License and Ukraine-related General Licenses

On June 26, 2019, the US Treasury Department's Office of Foreign Assets Control (OFAC) amended Venezuela-related General License 13A (re-issued as General License 13B) to extend its expiration date from July 27, 2019 to October 25, 2019. General License 13B continues to authorize transactions with Nynas AB, which is owned more than 50% by Petróleos de Venezuela SA ("PdVSA"), and any of Nynas AB's subsidiaries. PdVSA was designated as a Specially Designated National (SDN) on January 28, 2019, under Executive Order 13850. Our original blog post regarding the designation of PdVSA is available here. Dealings with entities owned 50% or more by PdVSA are prohibited absent OFAC authorization (i.e., a general or specific license). Our previous blog post regarding the application of US sanctions to certain PdVSA subsidiaries is available here.

In addition, OFAC extended the expiration dates of two general licenses related to GAZ Group ("GAZ"), which was designated as an SDN on April 6, 2018 for being owned or controlled by Oleg Deripaska. Please see our blog post regarding this designation here. The GAZ-related general licenses were amended as follows:

- **General License 13L**. OFAC extended the expiration of General License 13K (reissued as General License 13L) from July 6, 2019 to November 8, 2019. General License 13L authorizes certain transactions ordinarily incident and necessary to divest or transfer debt, equity, or other holdings in GAZ to non-US persons.
- **General License 15F**. OFAC extended the expiration date of General License 15E (reissued as General License 15F) from July 6, 2019 to November 8, 2019. In addition, OFAC added to General License 15F a new authorization for the installation of Electronic Stability Program systems consistent with applicable automotive safety regulatory requirements in vehicles produced by GAZ or any entity it owns 50% or more. Consistent with prior versions of this General License, General License 15F also authorizes certain activities ordinarily incident and necessary to the maintenance or wind down of operations or existing contracts involving GAZ or any other entity 50% or more owned by GAZ.

OFAC amends procedures and requirements for reports and license applications related to blocked property, unblocked property, and rejected transactions

The US Treasury Department's Office of Foreign Assets Control (OFAC) issued an interim final rule effective June 21, 2019 amending the Reporting, Procedures and Penalties Regulations, 31 C.F.R. Part 501 (the "RPPR Rule"), to add new requirements for reporting blocked or unblocked property and rejected transactions. The new reporting requirements apply to any US person (or person subject to US jurisdiction). Importantly, the rejected transaction reporting requirements, which previously applied to funds transfers rejected by financial institutions, now apply in the context of potentially any business transaction. This change could have significant implications for some companies in terms of compliance responsibilities and the need for related internal controls. The RPPR Rule does not provide much detail on the circumstances that would trigger the new reporting requirements in the context of the enumerated categories of transactions.

OFAC also added certain informational requirements for reports to clarify upfront the details needed to fully identify blocked or unblocked property and rejected transactions, and determine the authority under which they were blocked/unblocked/rejected. In announcing the RPPR Rule, OFAC indicated that in the past, these clarifications could sometimes require multiple time-consuming communications between OFAC and the submitter.

OFAC further clarified that reports of blocked and unblocked property and rejected transactions are subject to the Freedom of Information Act (FOIA). Accordingly, such reports generally will be released upon the receipt of a valid FOIA request unless OFAC determines that such information should be withheld in accordance with an applicable FOIA exemption.

Reports on Rejected Transactions

Historically, US financial institutions have been required to submit reports to OFAC of funds transfers they rejected in compliance with US sanctions regulations. Now, any company, not just a financial institution, is required to report any rejected transaction in which processing or engaging in the transaction would violate US sanctions. Rejected "transactions" include those related to wire transfers, trade finance, securities, checks, foreign exchange, and goods or services.

At the moment, it is not clear when and how the reporting requirement would be triggered, depending on the nature of the transaction. For example, in the context of transactions related to goods or services, OFAC has not indicated whether a general business inquiry originating in a sanctioned country, or a proposal from a non-US subsidiary to a US parent company regarding potential business in a sanctioned country would be sufficient to trigger the reporting requirement or, alternatively, whether an identifiable order or specific financial transaction would need to be declined to trigger reporting. Details of information required to be submitted in such reports are set forth in the bullet points below.

Reports on Blocked and Unblocked Property

In addition to expanding the scope of the rejected transaction reporting requirement, OFAC has expanded the information required to be provided in connection with initial and annual reports of blocked property.

OFAC has also added informational requirements for reports on the release of property from blocked status (i.e., unblocked property). These reports are only due when specifically required by OFAC, e.g., when they are made a condition of a general or specific license.

Informational Requirements

The information required in reports of rejected transactions, and blocked and unblocked property is provided below. OFAC indicated in the RPPR Rule that it strongly prefers to receive reports by email or any other official electronic reporting option, as specified on its website.

- **Reports of Rejected Transactions:**
    - The name and address of the person that rejected the transaction and a contact from whom additional information may be obtained;
    - a description of the rejected transaction, including certain required identifying information;
    - if applicable, the associated sanctions target(s) whose involvement in the transaction has resulted in the transaction being rejected and its location, if known;
    - the date the transaction was rejected;
    - the actual, or if unknown, estimated value of the property in US Dollars;
    - the legal authority or authorities under which the transaction was rejected; and
    - a copy of any related payment or transfer instructions or other relevant documentation.
- **Initial Reports of Blocked Property** (to be submitted on one of two forms, one for financial transactions, and one for tangible/real/other non-financial property):
    - The name and address of the person holding the blocked property and a contact person from whom additional information may be obtained;
    - a description of any transaction associated with the blocking, including certain identifying information;
    - the associated sanctions target(s) whose property is blocked or a reference to the relevant written communication from OFAC if there is no associated target or that target is unknown;
    - a description of the property that is the subject of the blocking and its location;
    - the date the property was blocked;
    - the actual, or if unknown, estimated value of the property in US Dollars;
    - the legal authority or authorities under which the property is blocked and the action taken with respect to the property (e.g., that the property has been deposited into a new or existing blocked, interest-bearing account); and

- a copy of any payment or transfer instructions or other relevant documentation.

- **Annual Reports of Blocked Property** (to be submitted on revised Form TDF 90-22.50):
  - The name and address of the person holding the blocked property and a contact from whom additional information may be obtained;
  - the number of accounts or items reported in the annual report;
  - the associated sanctions target(s) whose property is blocked or a reference to the relevant written communication from OFAC if there is no associated target or that target is unknown;
  - a description of the property that is the subject of the blocking and its location;
  - the date the property was blocked;
  - the actual, or if unknown, estimated value of the property in US Dollars; and
  - the legal authority or authorities under which the property is blocked.
- **Reports of Unblocked Property**:
  - The name and address of the person holding the property immediately prior to the property's release from blocked status and a contact from whom additional information may be obtained;
  - the associated sanctions target(s) whose property had been previously blocked or a reference to the relevant written communication from OFAC if there is no associated target or that target is unknown;
  - a description of the property and its location immediately prior to its release from blocked status, including certain required identifying information;
  - the date the property was unblocked;
  - the actual, or if unknown, estimated value of the property that was released from blocked status in US Dollars;
  - the legal authority or authorities under which the property was unblocked; and
  - when available, a copy of the original blocking report filed with OFAC.

In addition to the reporting requirements, OFAC updated the process for applying for licenses to unblock property. License applications must now be submitted on OFAC's website or by mail, using Form TD-F 90-22.54.

Although the amendments described above came into effect on June 21, OFAC is soliciting public comment on the RPPR Rule until July 22, 2019.

OFAC issues amended Venezuela-related general licenses and FAQ to clarify position on exports/reexports of diluents to Venezuela

On June 6, 2019, the US Treasury Department's Office of Foreign Assets Control ("OFAC") amended three Venezuela-related general licenses (re-issued as General License No. 7B, General License No. 8A, and General License 13A) to clarify that these authorizations do not authorize US Persons to engage in transactions or dealings related to the exportation or reexportation of diluents, directly or indirectly, to Venezuela. Such general licenses ("GLs") were originally issued concurrent with the designation of Petróleos de Venezuela SA ("PdVSA") as a Specially Designated National ("SDN") on January 28, 2019, under Executive Order 13850. Our original blog post regarding the designation of PdVSA is available here.

GLs 7B and 13A were previously issued by OFAC as GLs 7A and 13 to authorize transactions with certain companies owned 50% or more by PdVSA ("Authorized PdVSA Subs") that would otherwise prohibited due to PdVSA's designation as a SDN. Such Authorized PdVSA Subs include CITGO Holding Inc. and PDV Holding Inc. under GL 7B and Nynas AB under GL 13A. Prior to these changes, GLs 7A and 13 had prohibited exports/reexports of items to PdVSA or other PdVSA Subs (which would have covered diluents), but they now also include clarifying language that no diluents are to be exported to Venezuela pursuant to those GLs. Our previous blog post regarding the application of US sanctions to the Authorized PdVSA Subs is available here.

GL 8 was previously issued to authorize Chevron Corporation, Halliburton, Schlumberger Limited, Baker Hughes, and Weatherford International PLC to continue operations in Venezuela involving PdVSA despite the latter's SDN designation. GL 8 had already included language stating that the export/reexport of diluents was not authorized, but this language was broadened to apply to "any transactions and dealings" and to exclude "from the United States," thus prohibiting US Persons from any role in exports/reexports of diluents (regardless of country of origin) to Venezuela. In sum, these GLs have not changed significantly in terms of substance. Rather, all three GLs were re-issued and amended to highlight the US sanctions compliance risks related to diluent exports/reexports to Venezuela (regardless of origin).

In addition, OFAC issued a new FAQ 672 to its website, which explains that the export of diluents is not permitted because they play a key role in the transport and export of Venezuelan petroleum, a primary source of revenue for the current Government of Venezuela. In that FAQ, OFAC also threatens US secondary sanctions (e.g., SDN designation) against parties that supply diluents to PdVSA.

If you have any questions, please contact the authors, Kerry B. Contini, Alexandre (Alex) Lamy and Meghan Hamilton, or any member of the US Outbound Trade group with whom you normally work.

USDA determines 2020 in-quota sugar TRQs

On June 27, 2019, the Office of the Secretary of the Department of Agriculture published in the *Federal Register* a notice announcing the establishment of the Fiscal Year (FY) 2020 (October 1, 2019–September 30, 2020) in-quota aggregate quantity of raw cane sugar at 1,117,195 metric tons raw value (MTRV), and the establishment of the FY 2020 in-quota aggregate quantity of certain sugars, syrups, and molasses (also referred to as refined sugar) at 192,000 MTRV.

Because the specialty sugar TRQ is first-come, first-served, tranches are needed to allow for orderly marketing throughout the year. The FY 2020 specialty sugar TRQ will be opened in five tranches. The first tranche, totaling 1,656 MTRV, will open October 1, 2019. All specialty sugars are eligible for entry under this tranche. The second tranche of 50,000 MTRV will open on October 9, 2019. The third tranche of 55,000 MTRV will open on January 22, 2020. The fourth tranche of 35,000 MTRV will open on April 15, 2020. The fifth tranche of 35,000 MTRV will open on July 15, 2020. The second, third, fourth, and fifth tranches will be reserved for organic sugar and other specialty sugars not currently produced commercially in the United States or reasonably available from domestic sources.

JAPAN

Additional restrictions added to METI's licensing policies and procedures on exports of controlled items to the Republic of Korea

METI (the Ministry of Economy, Trade and Industry) announced two amendments to the export control regulations on 1 July 2019.

1. Bulk license applicability: individual export licenses now required for certain items and related technologies

METI announced partial amendments to four guidelines related to the implementation of export control regulations, including the Export Trade Control Order.

Starting on 4 July 2019, Japanese exporters will be required to apply for individual export licenses to export Hydrogen Fluoride, Fluorinated polyimide, Resist and their relevant technologies, which may include technology transferred with exports of manufacturing equipment to the Republic of Korea, as the bulk licenses for these three materials will no longer be applicable.

The office responsible for receiving export license applications for exports of these materials to the Republic of Korea has been changed from a METI bureau or branch office to the Security Export Licensing Division of METI's main office.

This announcement is available here.

2. Republic of Korea no longer white-listed

METI also announced on 1 July 2019 that it has initiated the process of revising the so-called "White Countries" in Appendix 3 of the Export Trade Control Order to remove the Republic of Korea and that it is seeking public comment on this amendment.

This announcement is available here.

Details of the submission of public comments are available here.

Market impact

1. Bulk license applicability

Japanese exporters that are currently exporting products containing Hydrogen Fluoride, Fluorinated polyimide or Resist or that are transferring technologies related to these materials to the Republic of Korea under relevant bulk licenses may no longer do so and will now need to apply for individual export licenses for each contract (transaction).

Frequent and higher-volume exporters/transferors of these products/technologies to the Republic of Korea may be delayed by the need to obtain individual export licenses.

This amendment may affect the global semiconductor supply chain, as semiconductors are manufactured from various materials and parts obtained from interconnected suppliers.

2. Removal from "White Countries" list

Exports to "White Countries" are subject to simpler export licensing requirements and rarely require an export license unless they involve the export or transfer of so-called "listed products/technologies."

If the destination is a non-White Country, an export license is sometimes required even when the products/technologies at issue are not listed products/technologies. Exporters to Republic of Korea may need to make a self judgment of whether an export license is required or not.

This amendment may delay exports of the relevant products/technologies from Japan to the Republic of Korea and may disrupt the supply chain.

Arms (Prohibited Ammunition) Order 2019 in effect

Certain types of ammunition were prohibited from importation at midnight 20/21 June 2019, after the *Arms (Prohibited Ammunition) Order 2019* came into effect.

The Order, with the list of prohibited ammunition types, can be found here. The amendments to the Arms Act of 12 April 2019 established the offences for importing, possessing selling or supplying prohibited ammunition.

Key points for importers to note are:

- There are **no** exempt classes of importer who can obtain a permit to import prohibited ammunition. Importing prohibited ammunition is restricted to certain government agencies.
- Point of importation is 12 nautical miles (differs to that for firearms/parts).
- "Glow in the dark" paintball or BB pellets are NOT considered to constitute "tracer ammunition".
- Importers are advised to familiarise themselves with the ammunition types prohibited, to avoid seizure and destruction.

Checking controls are being put in place by Customs across most ammunition HS Tariff codes. Initially, this will involve, at a minimum, importers of all ammunition providing assurance to Customs that the ammunition being imported is NOT prohibited. As soon as practicable this process will be automated, to reduce disruption and delays to lawful importers of ammunition

Taxation of foreign e-commerce business introduced under the Law on Tax Administration

On 13 June 2019, the National Assembly adopted the Law on Tax Administration, which will take effect and replace the current Law on Tax Administration from 1 July 2020.

Among the various amendments related to tax administration matters, the law introduces a new taxation regime for foreign service providers including e-commerce business. In particular, under Articles 27.3 and 42.4, both banks and foreign suppliers (having no permanent establishment in Vietnam) are required to file and pay tax in Vietnam.

To find out more on the Law on Tax Administration and how this might affect your e-commerce business, please download our client alert here.

Joint Commission of JCPOA issues statement on extraordinary meeting held 28 July 2019

Upon the request of France, Germany, the United Kingdom and Iran, the Joint Commission of the Joint Comprehensive Plan of Action (JCPOA) held an extraordinary meeting on 28 July 2019. The talks were held in the context of rising tensions in the Persian Gulf, following the seizure of tankers and Iran's admitted breach of the terms of the JCPOA restricting its production of enriched uranium. The parties reaffirmed their commitment to preserving the JCPOA, however nothing substantive was agreed. Iran's Deputy Foreign Minister, Abbas Arahchi, stated: "The atmosphere was constructive. Discussions were good. I cannot say that we resolved everything, I can say there are lots of commitments".

The Joint Commission's statement can be accessed here.

EU revokes sanctions framework against the Maldives

- The EU Council has revoked the framework for restrictive measures against the Maldives that it adopted on 16 July 2018.
- Following a deterioration of the political situation in the Maldives in the first half of 2018, the framework allowed for the imposition of a travel ban and an asset freeze on persons and entities responsible for undermining the rule of law or obstructing an inclusive political solution in the Maldives, as well as persons and entities responsible for serious human rights violations.
- Sanctions have been lifted in light of recent democratic parliamentary elections and "*a firm commitment to consolidate democracy, ensure good governance, and promote respect for human rights*" following President Ibrahim Mohamed Solih's inauguration.
- The Maldives government confirmed its commitment to reinforce democracy, encourage good governance and promote respect for human rights during the fourth annual policy dialogue between the Maldives and the EU on 11 March 2019.

Commission issues tariff classification regulations

See separate section below for tariff classification regulations issued by the European Commission during the period covered by this Update.

Amendments to the CN Explanatory Notes

See separate section below for amendments to the *Explanatory Notes to the Combined Nomenclature of the European Union* that were published in the *Official Journal* during the period covered by this Update.

Binding Tariff Information

The European Community has created the Binding Tariff Information (BTI) system as a tool to assist economic operators to obtain the correct tariff classification for goods they intend to import or export.

Binding Tariff Information is issued on request to economic operators by the customs authorities of the Member States. It is valid throughout the Community, regardless of the Member State which issued it. For information about an existing BTI, you may want to contact the customs administration of the Member State which issued it. However, remember that, according to the provisions for data protection, there are limitations as to the information an administration can provide. You can search and consult existing BTIs on the EBTI-database.

Checking of coffee labelling: false declarations in Switzerland

On 21 June 2016, the Federal Food Safety and Veterinary Office (FSVO) announced that as part of the internationally coordinated OPSON VIII operation, thirteen European countries checked that coffee had been correctly declared. Three false declarations were found in Switzerland. Arabica coffee beans had been replaced by cheaper Robusta beans despite the label stating “100% Arabica coffee”. The announcement said:

> The international OPSON VIII operation, coordinated by Europol and INTERPOL, was led in Switzerland by the Federal Food Safety and Veterinary Office (FSVO). In February 2019, the food enforcement authorities in Switzerland and Liechtenstein collected a total of 58 samples (53 and 5 samples respectively). The samples, taken from large distributors and local coffee roasting establishments, consisted of whole roasted coffee beans, ground coffee beans or coffee capsules. An increased level of 16-O-methylcafestol was found in three of the coffee samples tested. This constituent only occurs in coffee beans of the Robusta species. The labelling “100% Arabica coffee” was therefore incorrect.
>
> One of the coffees testing positive had been produced in Italy. This case was referred to the Italian authorities for follow-up. The other two positive coffee samples originated in Switzerland and were referred to the competent cantonal enforcement authorities. The latter are now investigating whether Robusta coffee beans were deliberately added.
>
> Compliance with the maximum levels for ochratoxin A in coffee beans was also checked during the tests. Ochratoxin A is a harmful mycotoxin that can be produced if coffee beans are handled incorrectly. None of the 58 samples exceeded the maximum level for ochratoxin A.

INTERPOL and Europol have been coordinating OPSON operations to combat food fraud since 2011. Switzerland has been participating since 2016. The joint operations aim to combat misleading and fraudulent practices in the food chain. Each country is free to choose the topic it selects for the operation. In addition to the cases in Switzerland, potential cases of coffee fraud were also found in Germany and Portugal.

Eurasian Economic Union (EAEU)

Classification decisions adopted by the Commission and preliminary decisions adopted by the States-Members

The Commission has posted a table which provides a collection of classification decisions under the common tariff adopted by the Commission. A separate website exists for preliminary decisions on the classification of goods adopted by the customs authorities of states - members of the Eurasian Economic Union. It was last updated 17 July 2019 2019. The table lists the tariff codes, a description, rationale (GRIs) for the decision.

RUSSIAN FEDERATION

The Russian Government temporarily allows certain Ukrainian goods on the sanctions list to be imported

On June 20, 2019, the Russian Prime Minister signed Resolution No. 787-31, introducing changes to Governmental Decree No. 1716-83 dated December 29, 2018 that implemented an import ban with respect to Ukrainian goods (please refer to our previous blog posts of January 18, 2019 and April 23, 2019).

Per the changes adopted by Resolution No. 787-31:

1) The import ban does not apply to goods imported to complete customs procedures for processing outside the customs territory and temporary export.

2) The list of certain products and applicable HS codes subject to the import ban is modified.

3) The import ban is temporarily lifted with respect to the following products:

− Up to July 1, 2019: transmission shafts (HS code 8483 10 950 0), transformers with a liquid dielectric, having a power handling capacity exceeding 650 kVA but not exceeding 1600 kVA (HS code 8504 22 100 0).

− Up to October 1, 2019: transformers with a liquid dielectric, having a power handling capacity exceeding 10 000 kVA (HS code 8504 23 000 9).

− Up to January 1, 2020: electric motors and generators of an output exceeding 375 kW (HS code 8501 34 000 0), alternators of an output not exceeding 75 kVA (HS code 8501 61), alternators of an output exceeding 750 kVA (HS code 8501 64 000 0), transformers with a liquid dielectric, having a power handling capacity exceeding 1600 kVA but not exceeding 10 000 kVA (HS code 8504 22 900 0).

− Up to October 1, 2021: certain types of pipe products made of steel (HS codes 7304 41 000, 7304 59).

Resolution No. 787-31 entered into force on June 21, 2019.

Russia considers new counter-sanctions

The Russian State Duma is considering amendments to Federal Law "*On Measures (Countermeasures) in Response to Unfriendly Actions of the USA and (or) other Foreign States*" ("Law on Countersanctions") dated June 4, 2018.

On July 24, 2019, Draft Bill proposing additional Russian countersanctions ("Draft") was approved by the Russian State Duma in the first reading. The amendments to the Draft will be presented till August 22, 2019. The second reading of the Draft has not been scheduled yet.

The Draft proposes the following principal provisions as regards to the settlement of disputes between sanctioned Russian persons and their foreign counterparties:

1. Unless the parties entered into an arbitration agreement subjecting contractual disputes to the jurisdiction of courts, arbitral tribunals or international organizations outside Russia, such disputes shall be settled by Russian courts.
2. Claims against a sanctioned Russian person shall be filed with a competent court in Russia.

3. Sanctioned Russian persons are entitled to claim termination of court proceedings outside Russia in a competent Russian court. Non-compliance of foreign persons with the decision of Russian court on termination of such court proceedings will result in a court fine in the amount of the claim and legal costs incurred by a sanctioned Russian person in the proceedings.

4. If a sanctioned Russian person cannot appear before a court, international organization or arbitral tribunal located outside Russia due to the sanctions imposed, such sanctioned Russian person can unilaterally amend a valid arbitration agreement subjecting settlement of disputes in foreign states in favor of courts or arbitral tribunals located in Russia. Non-compliance of a foreign counterparty with such unilateral amendment grants a Russian sanctioned person the right to claim penalty in the amount of the claim.

The Draft also proposes a broad definition of the term "restrictive measures" to be introduced in the Law on Countersanctions, which includes the measures that limit:

1. the rights of Russian persons to possess, use, or dispose of the property located in foreign states, to use or dispose of the property rights in foreign states, to make financial transactions in funds in a currency of foreign states;

2. an ability of any person to enter into transactions, execute or accept execution under transactions involving a sanctioned Russian person, property (property rights) of such person, or securities issued by such person.

The Draft is purported to regulate certain issues that are not within the scope of Russian jurisdiction, that is why its practical application is questionable. As of today, there are strong doubts regarding the approval of the Draft in its current wording. The Draft in our view will likely be amended prior to its approval, if any. We will be closely monitoring status of this Draft.

CBSA Advance Rulings

The following table lists advance rulings posted by the Canada Border Services Agency (CBSA). In September of 2014, the CBSA enhanced the Advance Ruling (Tariff Classification and Origin) and National Customs Ruling programs by publishing ruling letters in their entirety, with the applicant's consent, on the CBSA Web site.

It is important to note that rulings are binding only between the CBSA and the applicant. While posted rulings are for reference purposes only, they provide meaningful guidance and help other importers in complying with Canada's trade legislation. Click on the "Merchandise" listing to see full text of the posted ruling.

CBP Rulings: Downloads and Searches

As US Customs and Border Protection (CBP) issues several thousand rulings a year, it is not practical to list each ruling. However, almost all rulings issued by

US Customs or CBP from 1993 to the present and many issued before 1993 are available for search and downloading using the CROSS search engine. Over 190,000 such rulings are in the database.

CBP Rulings: Revocations or Modifications

The following table summarizes proposals made or actions taken that were published in the weekly *Customs Bulletin and Decisions* during the past month by US Customs and Border Protection pursuant to 19 U.S.C. §1625(c) to revoke or modify binding rulings or treatment previously accorded to substantially identical merchandise. In addition, there is one revocation pursuant to 19 U.S.C. §1516.

European Classification Regulations

The table below shows the Classification Regulations that were published in the *Official Journal* during the period covered by this *International Trade Compliance Update*.

Commission Implementing Regulation	Description of the goods	Classification (CN code)	Reasons
(EU) 2019/1082 of 20-06-19	A self-clinching stud made of steel. It has a threaded shank and a round, flat and smooth head with underlying knurling. It can have different dimensions. The article is designed to be mounted on low-thickness metal sheets by means of a hydraulic or pneumatic press. The head stays exactly on the level of the sheet while the threaded part remains perpendicular to the sheet. Consequently, it creates a male thread, which enables the sheet to be joined by means of an additional nut to another element which can be detached by screwing in a reversible way. See image. 	7318 15 95	Classification is determined by general rules 1 and 6 for the interpretation of the Combined Nomenclature and by the wording of CN codes 7318 , 7318 15 and 7318 15 95 . The article is threaded and used to assemble or fasten goods so that they can readily be disassembled without damage. It has the objective characteristics of a screw of heading 7318 . Consequently, classification under CN code 7318 19 00 as other threaded articles is excluded (see also the Harmonised System Explanatory Notes to Heading 7318 (A)). It is therefore to be classified under CN code 7318 15 95 as other screws of steel.

Initiation of Sunset Reviews

In a July 1, 2019, *Federal Register* notice, the US Department of Commerce advised that it was automatically initiating a five-year ("Sunset") review of the antidumping and countervailing duty orders listed below.

AD/CVD DOC Case No.	ITC Case No.	Country	Merchandise
A–570–881	731–TA–1021	China	Malleable Cast Iron Pipe Fittings (3rd Rev.)
A–570–932	731–TA–1145	China	Steel Threaded Rod (2nd Review)
A–533–824	731–TA–933	India	Polyethylene Terephthalate (PET) Film (3rd)
C–533–825	731–TA–415	India	Polyethylene Terephthalate (PET) Film (3rd)
A–583–837	731–TA–934	Taiwan	Polyethylene Terephthalate (PET) Film (3rd)

On June 4, 2019, the Department of Commerce (Commerce) published the Initiation of Five-Year ("Sunset") Reviews (June 4, 2019), in which Commerce inadvertently omitted Oil Country Tubular Goods from Vietnam (A-552-817) from the list of cases that initiate June 2019.
