

Title: Export Trade Compliance Manager

Overview

The Export Compliance Manager aligns with worldwide laws governing the exports of technology and products. We are looking for a creative and strong individual to solve compliance challenges at Essilor. As an integral part of the Legal department, you will be responsible for a wide array of compliance activities including aligning with the Export Administration Regulation (EAR), International Traffic in Arms Regulations (ITAR), Office of Foreign Asset Control (OFAC), and foreign government agencies. You will research, and classify software, hardware, or 3rd party products, and submit classification requests to relevant government agencies, or applications for export licenses for controlled products or technologies and maintaining corporate records. You will also be responsible for deemed export compliance and verifying export license applications have been submitted BIS, manage AES filings, complete denied party screenings, manage audit export, oversee export recordkeeping, and maintaining records for record retention. Furthermore, you will be developing and executing Export Compliance Awareness trainings, developing and implementing compliance processes and procedures. In addition, you will be expected to participate and contribute to the many other facets which the export compliance department manages across the company.

Key Qualifications

- Strong working knowledge of the Export Administration Regulations, especially Categories 3, 4, and 5.
- Experience with Deemed Export/Reexport reviews.
- Experience with both optical industry products, equipment and component Schedule B classifications.
- Experience with investigating and researching companies and individuals for sanctions risks.
- Excellent oral and written communication skills.
- Experience in preparing and presenting compliance trainings to large groups.
- Excellent organization, project management, and documentation skills.
- 5+ years of export compliance experience is required.
- Familiarity with hazardous material, CFG's, and CTPAT is a plus.

Education & Experience

- Bachelor's degree in international business, international relations, international trade or a related training and equivalent work experience.
- US Citizenship Required
