

## Global Partners Program Outline

*Helping ICPA Create Networking and Educational Opportunities Around the Globe*

---

We are excited to share our Global Partner Service Provider membership with you!

\*The phrase “agreed year” in the below refers to January 1<sup>st</sup> through December 31<sup>st</sup> of each paid year

The benefits you will receive as an ICPA Global Sponsor are as follows:

- ICPA active group members move from 5 to 7
- Priority billing on training page on ICPA website with link to your website and/or training info
- 20% discount on all sponsorships at all events, including exhibiting booths
- Priority registration and booth location selection across events – GPs will get invitations before all other members or the public and will be granted selection on a first come first serve basis. In the event a GP registered after a regular member, the GP will also be moved in front of them when booth selection takes place.
- Logo on all event registration sites built in the agreed year\* – registration sites are built typically 10 months before the event start date.
- Global Partner sign at all events for the agreed year\* – this reflects the events that are held in the agreed year, not necessarily the registration site for that year.
- Special consideration for speaking opportunities – this involves a list of proposed topics being sent to all GPs before the ICPA members at large. Speakers are still expected to respond in a timely manner as spots are given on a first come, first serve basis. Please keep in mind that most agendas are designed 10 months before the event start date.
- Special consideration for partnership opportunities – any new sponsorship opportunities we offer will be delivered to GPs for first right of refusal before being opened to other members.

Registration begins January 1 of each year through the ICPA website, with renewals given top priority.

We look forward to partnering with you as we continue making ICPA a network of people and a world of knowledge!
