Senior Analyst - Trade Compliance Operations - Piscataway, NJ

JOB TITLE	Senior Analyst - Trade Compliance Operations - Piscataway, NJ
FUNCTION	Operations
SUB FUNCTION	Transportation Services
LOCATION	Piscataway, New Jersey, United States
DATE POSTED	Jan 28 2023
REQUISITION NUMBER	2306103850W

DESCRIPTION

Johnson & Johnson Health Care Systems, Inc., a member of the Johnson & Johnson's Family of Companies is recruiting for a **Sr. Analyst, Trade Compliance Operations**, as part of the Global Transportation Organization located in **Piscataway, NJ**.

Johnson & Johnson Health Care Systems Inc. (JJHCS) provides contracting, supply chain, business services, and strategic solutions to customers and commercial intermediaries of U.S.-based Johnson & Johnson companies, including hospital systems, health plans, distributors, wholesalers, purchasing organizations, government payer programs, and government healthcare institutions in the U.S. JJHCS also engages with customers to provide streamlined supply chain services for our products that seamlessly integrate with customer operations, address evolving market challenges to value-based care, and develop innovative solutions that improve patient care and access.

The Global Transportation Organization is part of Johnson & Johnson's global Supply Chain supporting operations across the Johnson & Johnson Family of Companies: Medical Devices and Pharmaceutical. We are a critical component of our supply chain, working collaboratively to ensure product quality and improving the customer experience is our top priority.

Are you interested in joining a team that is helping to move J&J products Worldwide to improve patient and customer care and drive innovation? Apply today for this exciting opportunity!

As the Senior Analyst, you will be responsible for serving as the primary liaison between the Transportation Organization and Johnson & Johnson importing and exporting companies. You will provide advice and training to business partners on logistics processes and procedures that comply with US Customs and Border Protection, FDA, USDA, and other regulatory compliance agencies' governing the clearance of import and export shipments.

As the Senior Analyst, Trade Compliance operations, you will:

Support FTZ Operations with the preparation and filing of daily zone admissions (i.e., CF 214 and concurrences), in-

Careers

ASSIST FIZ Operations with on-site audits initiated by CBF.

Assign and maintain product classifications (i.e., HTSUS, ECCN, FDA) in the global classification database and in J&J internal systems, as required, to communicate product information to freight forwarders and Customs Brokers to affect government agencies.

Respond to transactional inquiries from customs brokers for products which require additional information to be cleared for importation into the United States.

Serve as liaison between Customs Broker and Regulatory Affairs to resolve FDA holds and Notices of Action until issue resolution.

Identify and implement Trade Compliance opportunities to participate in duty savings programs including drawback, foreign trade zones, and free trade agreements.

Provide direction to J&J importers and exporters on documentation requirements to stay in sync with Federal government agencies' requirements for international shipments.

Screen export trade entities to ensure that customers, suppliers, and other entities are screened against the US Denied Parties list to comply with US Bureau of Industry and Security (BIS), Office of Foreign Asset Controls (OFAC), and the State Department.

Collaborate with Operating Company business partners to review Global Trade Compliance assessments and develop training and compliance improvement plan goals.

Qualifications

Minimum of Bachelor's degree required

Licensed Customs Broker and/or Certified Customs Specialist preferred

Minimum 5 years of relevant work experience required

Bilingual (Spanish/English) strongly preferred

Requires experience in logistics, customer service, transportation, distribution, operations, supply chain, and/or information technology

Strong interpersonal and collaboration skills to succeed with internal and external business partners

Ability to handle multiple priorities optimally and work independently while demonstrating initiative

Proven analytical experience and ability to thrive in a dynamic work environment

Requires intermediate Microsoft Office proficiency; VLOOKUPS and pivot tables required

Tableau or data visualization systems experience preferred

Requires up to 10% domestic and international travel.

The anticipated base pay range for this position in NJ is 73,000 -117,300.

At Johnson & Johnson, we're on a mission to change the trajectory of health for humanity. That starts by creating the world's healthiest workforce. Through cutting-edge programs and policies, we empower the physical, mental, emotional, and financial health of our employees and the ones they love. As such, candidates offered employment must show proof of COVID-19 vaccination or secure an approved accommodation prior to the commencement of employment to support the well-being of our employees, their families and the communities in which we live and work.
